

TAKE IT AWAY

Here is a list of the files that require modifications and their resulting proper names. Please refer to the notes below for information describing this procedure.

BASS_SCRATCH_TRACKL.wav & BASS_SCRATCH_TRACKR.wav should be combined.

The resulting file name should be BASS_SCRATCH_STEREO.wav

DRUMS_REST_OF_KIT_TRACKL.wav & DRUMS_REST_OF_KIT_TRACKR.wav should be combined. The resulting file name should be DRUMS_REST_OF_KIT_TRACK_STEREO.wav

KICK_TRACKL.wav & KICK_TRACKR.wav should be combined. The resulting file name should be KICK_TRACK_STEREO.wav

LEAD_GUITAR_WITH_FX_TRACKL.wav & LEAD_GUITAR_WITH_FX_TRACKR.wav should be combined. The resulting file name should be LEAD_GUITAR_WITH_FX_TRACK_STEREO.wav

LEAD_VOCAL_BRIDGE_FX_TRACKL.wav & LEAD_VOCAL_BRIDGE_FX_TRACKR.wav should be combined. The resulting file should be LEAD_VOCAL_BRIDGE_FX_STEREO.wav

MARC_TREE_TRACKL.wav & MARC_TREE_TRACKR.wav should be combined. The resulting file should be MARC_TREE_TRACK_STEREO.wav

RHODES_PIANO_TRACKL.wav & RHODES_PIANO_TRACKR.wav should be combined. The resulting file should be RHODES_PIANO_TRACK_STEREO.wav

RNB_BASS_TRACKL.wav & RNB_BASS_TRACKR.wav should be combined. The resulting file should be RNB_BASS_TRACK_STEREO.wav

SNARE_TRACKL.wav & SNARE_TRACKR.wav should be combined. The resulting file should be SNARE_TRACK_STEREO.wav

STRING_TRACKL.wav & STRING_TRACKR.wav should be combined. The resulting file should be STRING_TRACK_STEREO.wav

Update Procedure

Waves offers two ways to update your sessions:

1. A *Downloadable* version, containing the modified files and the sessions files. You will need to download both the session files and the audio files.

2. A *Do-It-Yourself* version, which includes only the modified sessions files. This version demands the alteration of certain audio files contained in the original CDs that come with the book. General instruction will follow.

Using the downloadable version:

1. Download the zipped sessions pack for the desired platform.
2. Download the zipped audio files.
3. Unzip the files.
4. Move the included audio files into your sessions' audio files folder.
5. Open the session with the new session file (marked as V5)
6. Relocate the audio files using the programs' dialogue.
7. Run the modified session.

Note: the old mono files that you received with your CDs can be removed. This is optional. It is not recommended that you do this unless you fully understand which files are disposable.

Using the Do-It-Yourself version:

This version involves a bit of work. It requires the user to produce new stereo files from the split mono files provided with the Books' CDs.

The zipped files you download include a short list of the files that need modification.

1. Download the zipped files corresponding to the sessions you wish to use.
2. Unzip the files.
3. Open the attached document listing for the files that need modification.
4. Create a new session.
5. Import a pair of audio files. For example: Bassline L.wav & Bassline R.wav.
6. Pan these files hard left and hard right in your session.
7. Bounce the resulting mix to create a new stereo interleaved version of the files.
8. Rename the files according to the list supplied with each session.
9. Insert the resulting files into the sessions' audio files folder.
10. Open the session with the new session file (marked as V5)
11. Relocate the audio files using the programs' dialogue.
12. Run the modified session.

Enjoy!
