PRODUCTION, MIXING, MASTERING WITH WAVES – BOOK SESSIONS
UPDATE NOTES

<u>PRO TOOLS LE NOTES</u>

In making an LE version for these sessions some compromises had to be made due to the limitations of the LE version. Namely, it's voicing limitations.
Certain stereo files had to be truncated to a mono version, and in one case, two tracks were combined into one and a simple automation move was applied in order to keep the mix as close as possible to the original session.

1. Download the zipped stuffed files corresponding to the sessions you wish to use.
2. Unzip the files.
3. Move the session file into the books' session folder.
4. Open the session with the new session file (marked as V5)
5. Locate the audio files using the programs' dialogue.
6. Run the session.

Enjoy!
